GTT receives an order from Samsung Heavy Industries for the tank design of a new LNG Carrier

Paris – February 5th, 2019. GTT has received an order from Samsung Heavy Industries (SHI) concerning the tank design of a new 174,000 m³ LNG carrier, on behalf of a European ship-owner. The delivery of the ship is planned during the first half of 2021.

GTT's membrane containment system [Mark III Flex](#) has been selected for the design of the tanks. The name of the ship-owner remains confidential at this stage.

Philippe Berterottière, Chairman and CEO of GTT declared: *"We are very pleased to pursue our partnership of excellence with Samsung Heavy Industries through this new order."*

About GTT

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
