GTT receives an order from Samsung Heavy Industries for the tank design of a new LNG Carrier for Minerva Gas

Paris – February 13th, 2019. GTT has received an order from Samsung Heavy Industries (SHI) concerning the tank design of a new 174,000 m³ LNG carrier, on behalf of the ship-owner Minerva Gas.

GTT's membrane containment system [Mark III Flex+](#) has been selected for the design of the tanks and the delivery of the ship is planned during Q3 2021.

Philippe Berterottière, Chairman and CEO of GTT declared: *"We are very pleased that Minerva increases its presence in the LNG world through this new order for our Mark III Flex+ technology. It demonstrates the attractiveness, for the LNG Industry players, of this containment system which offers the lowest level of Boil-Off Rate currently on the market."*

About GTT

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
