

Press release

GTT's Board of Directors appoints Julien Burdeau as Chief Operating Officer

Paris – 14 October. GTT, the world leader in the design of membrane containment systems for the maritime transportation and storage of LNG (Liquefied Natural Gas), announces that its Board of Directors met on October 14th and appointed Julien Burdeau as Chief Operating Officer of the company, following the proposal of Philippe Berterottière, Chairman of the Board and CEO.

Julien Burdeau joined GTT in 2013 as Vice President, in charge of Innovation, a position he will retain. He began his career with the French ministry for Industry, before he moved into the steelmaking sector in 2002. He gained 11 years of industry experience and held various operational responsibilities at Arcelor then ArcelorMittal and Aperam. From 2009 to 2013, he managed the Aperam group's Alloys and Specialties division. He is a graduate from the Ecole Normale Supérieure, holds a PhD in mathematics and is a Corps des Mines engineer.

About GTT

GTT (Gaztransport & Technigaz) is the world leader in cryogenic membrane containment systems used for the transport and the storage of LNG (Liquefied Natural Gas). For over 50 years, GTT has offered to its customers technologies which allow them to optimize storage space and reduce the construction and operation costs of ships or tanks equipped with these systems. GTT operates in several sectors: LNGCs (Liquefied Natural Gas Carriers) and VLECs (Very Large Ethane Carriers), Multi-gas carriers, FLNGs (Floating Liquefied Natural Gas units), FSRUs (Floating Storage and Regasification units), onshore storage tanks and the use of LNG as a fuel.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is included in SBF 120 and MSCI Small Cap indices.
