

Press Release

GTT receives an order from Jiangnan Shipyard for the design of 5 container ships' LNG fuel tanks

Paris – June 26th 2019. GTT has received an order from the Chinese shipyard Jiangnan Shipyard (Group) Co., Ltd. for the tank design of 5 new LNG-fuelled container ships of 15,000 TEU capacity each. The ships will be built on behalf of a European ship-owner and their delivery will be staggered between the second half of 2021 and the first half of 2022.

GTT will design the LNG fuel tanks, with a capacity of 14,000 m³ per ship. The [Mark III Flex](#) membrane containment system, developed by GTT, has been chosen for its space optimisation allowing a maximum usage of cargo capacity.

Philippe Berterottière, Chairman and CEO of GTT, declared: *“Less than 18 months after the first order for LNG-fuelled container ships, we are delighted to confirm, with this new order, the interest and effectiveness of our solutions to address the emerging environmental challenges for shipping.”*

About GTT

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
