

Press Release

GTT receives order notification for the tank design of a new LNG carrier

Paris – November 26th, 2018. GTT has received a new order notification from a Korean shipyard for the tank design of a new 174,000 m³ LNG carrier (LNGC), to be built on behalf of a European ship-owner. The vessel's delivery is expected in Q1 2021.

The LNG tanks of the vessel will be equipped with the proven [Mark III Flex](#) containment system developed by GTT.

The ship-owner's and shipyard's names are confidential.

About GTT

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
