GTT receives an order for the tank design of two new LNG Carriers

Paris – January 31st, 2019. GTT has received an order from an Asian shipyard concerning the tank design of two new LNG carriers. GTT's membrane containment system [NO96 GW](#) has been selected for the design of the tanks.

The vessels' delivery is expected for Q4 2020 and Q1 of 2021 respectively.

The ship-owner's and shipyard's names remain confidential.

About GTT

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
