

## GTT receives its first order from Yangzijiang to design the tanks of two new LNG Carriers

**Paris – December 12, 2022.** GTT announces that it has received its first order for the tank design of two LNGCs<sup>1</sup> from its new partner the Chinese shipyard Yangzijiang, on behalf of a European ship owner.

GTT will design the tanks of these two vessels, which will each offer a cargo capacity of 175,000 m<sup>3</sup>. The tanks will be fitted with the [MarkIII Flex](#) membrane containment system developed by GTT.

The delivery of the vessels is scheduled between the fourth quarter of 2025 and the second quarter of 2026.

### About GTT

GTT is a technological expert in containment systems with cryogenic membranes used to transport and store liquefied gases. For over 50 years, GTT has been designing and providing cutting-edge technologies for a better energy performance, which combine operational efficiency and safety, to equip LNG carriers, floating terminals, land storage, and multi-gas carriers. GTT also develops systems dedicated to the use of LNG as fuel, as well as a full range of services, including digital services in the field of Smart Shipping. The Group is also active in hydrogen through its subsidiary Elogen, which designs and assembles electrolyzers notably for the production of green hydrogen.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
