

GTT entrusted by Hyundai Samho Heavy Industries with the tank design of two new LNG Carriers

Paris – January 24th, 2023. GTT announces that it has received, at the beginning of 2023, an order from its partner the Korean shipyard Hyundai Samho Heavy Industries for the tank design of two Liquefied Natural Gas Carriers (LNGC) on behalf of a Middle-East shipowner.

GTT will design the tanks of these two vessels, which will each offer a capacity of 174,000 m³. The tanks will be fitted with the [Mark III Flex](#) membrane containment system, developed by GTT.

The delivery of the vessels is scheduled for the second quarter of 2026.

About GTT

GTT is a technological expert in containment systems with cryogenic membranes used to transport and store liquefied gases. For over 50 years, GTT has been designing and providing cutting-edge technologies for a better energy performance, which combine operational efficiency and safety, to equip LNG carriers, floating terminals, land storage, and multi-gas carriers. GTT also develops systems dedicated to the use of LNG as fuel, as well as a full range of services, including digital services in the field of Smart Shipping. The Group is also active in hydrogen through its subsidiary Elogen, which designs and assembles electrolyzers notably for the production of green hydrogen.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
