

GTT receives an order from Dalian Shipbuilding Industry Co for the cargo tank design of two new LNG carriers

Paris – June 23th, 2022. GTT announces that it has received an order from its partner, the Chinese shipyard Dalian Shipbuilding Industry Co (DSIC), for the tank design of two Liquefied Natural Gas Carriers (LNGC) on behalf of "CMES LNG Carrier Investment Inc". This is the first project for the construction of an LNG carrier at DSIC

These two LNG carriers will each have a total LNG tank capacity of 175,000 m³ and will be fitted with the [Mark III Flex](#) membrane containment system, developed by GTT.

The deliveries of the vessels are scheduled for the third quarter of 2025 and the first quarter of 2026.

Mr. Philippe Berterottière, Chairman and CEO of GTT, declared:

"We are very pleased to accompany DSIC in a new phase of our collaboration, with these first large LNG carriers to be built by DSIC. We will provide our full support to DSIC, mobilizing our teams of experts, to make this cooperation a great success."

Mr. JY.WU, Technical Director of "CMES LNG Carrier Investment Inc.", declared:

"CMES LNG Carrier Investment Inc" is ready and planning to expand our LNGC-sector business. We are fully confident that this first LNG carrier will be successfully built with close cooperation between owner, DSIC and GTT, and appreciate the continuous professional support from GTT."

About GTT

GTT is a technological expert in containment systems with cryogenic membranes used to transport and store liquefied gases. For over 50 years, GTT has been designing and providing cutting-edge technologies for a better energy performance, which combine operational efficiency and safety, to equip LNG carriers, floating terminals, land storage, and multi-gas carriers. GTT also develops systems dedicated to the use of LNG as fuel, as well as a full range of services, including digital services in the field of Smart Shipping. The Group is also active in hydrogen through its subsidiary Elogen, which designs and assembles electrolyzers notably for the production of green hydrogen.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
