

Press Release

## **GTT receives two new orders from DSME**

**Paris – April 5, 2018.** GTT announces it has received at the end of March, an order from the South Korean shipyard Daewoo Shipbuilding and Marine Engineering (DSME) for the design of the LNG tanks of two LNG carriers (LNGC).

Each offering a capacity of 173,400m<sup>3</sup>, these units will be built at DSME's shipyard in Geoje, Korea, on behalf of a European ship-owner. The tanks will be fitted with the [NO96 GW](#) technology.

Their delivery is expected for the first half of 2020.

*"We are very pleased to continue our excellent partnership with DSME with these two new orders."* commented Philippe Berterottière, Chairman and CEO of GTT.

### **About GTT**

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
