GTT receives notification for the order of two new LNG carriers

Paris – May 16, 2018. GTT has received an order notification from an Asian shipyard for the design of the LNG tanks of two new LNG carriers (LNGCs). These vessels will be built on behalf of a European shipowner.

GTT will design the LNG tanks of both units, each equipped with the [NO96 GW](#) containment system proven technology developed by GTT. Their delivery is expected in 2020.

About GTT

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
