

GTT Training receives the ‘LNG World Shipping Safety Award 2019’

Paris – December 12nd 2019. GTT Training¹ was awarded the ‘LNG World Shipping Safety Award for 2019’. Each year, LNG World Shipping rewards one LNG player for its significant impact on promoting safety in the LNG industry. The awards ceremony took place in London, on November 28th 2019, during the LNG Ship/Shore Interface Conference.

GTT Training was mainly rewarded for taking into account the “human factor” in maintaining safety of the industry.

Neil Macnab, Training Manager, declared: *“We have been very busy over the last year providing many different LNG training courses for the industry, working with companies by training with the simulators, as well as working with new companies and those not familiar with the LNG industry or the IGF code² adopted by IMO’s Maritime Safety Committee (MSC).”*

Ray Gillett, Director and General Manager of GTT Training said: *“We are very proud to have received this award. We are a young company and the fact that our contribution is recognised by the LNG industry so early confirms that we are moving in the right direction and achieving our aim of assisting the industry to keep the necessary skills and expertise that it needs to support its continuing growth.”*

Neil Macnab, Training Manager, collecting the LNG World Shipping ‘Safety’ award on behalf of GTT Training.

¹ GTT Training is a GTT subsidiary that is dedicated to the training of maritime professionals involved with the use of LNG as a cargo and marine fuel and the development of associated simulation tools.

² International Code of Safety for Ships using Gases or other Fuels for propulsion

About GTT

GTT (Gaztransport & Technigaz) is an engineering company expert in containment systems with cryogenic membranes used to transport and store liquefied gas, in particular LNG (Liquefied Natural Gas). For over 50 years, GTT has been maintaining reliable relationships with all stakeholders of the gas industry (shipyards, shipowners, gas companies, terminal operators, classification societies). The company designs and provides technologies which combine operational efficiency and safety, to equip LNG carriers, floating terminals, and multi-gas carriers. GTT also develops solutions dedicated to land storage and to the use of LNG as fuel for the vessel propulsion, as well as a full range of services.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is notably included in SBF 120 and MSCI Small Cap indices.
