

Press release

A new logo for GTT

Paris – 12 February 2015. GTT (Gaztransport & Technigaz), the world leader in the design of membrane containment systems for the maritime transportation and storage of LNG (Liquefied Natural Gas), is revamping its visual identity. The new, more streamlined logo has been modernized in order to better reflect the company's values and its spirit of innovation. The Earth disappears to be replaced by a bold affirmation of the GTT corporate brand. The ellipse has been brought to the forefront and redesigned to give the logo more dynamism. This ellipse then flows into two droplets which symbolize the origins of company, born of the merger between Gaztransport and Technigaz, and its two main associated technologies.

From 2009

to 2015

About GTT

GTT (Gaztransport & Technigaz) is the world leader in cryogenic membrane containment systems used for the transport and the storage of LNG (Liquefied Natural Gas). For over 50 years, GTT has offered to its customers technologies which allow them to optimize storage space and reduce the construction and operation costs of ships or tanks equipped with these systems. GTT operates in several sectors: LNGCs (Liquefied Natural Gas Carriers) and VLECs (Very Large Ethane Carriers), Multi-gas carriers, FLNGs (Floating Liquefied Natural Gas units), FSRUs (Floating Storage and Regasification units), onshore storage tanks and the use of LNG as a fuel.

GTT is listed on Euronext Paris, Compartment A (ISIN FR0011726835 Euronext Paris: GTT) and is included in SBF 120 and MSCI Small Cap indices.
